

Presentation **GOKARTS**

All-in-one software solution for karting
and multi-activity leisure centers

APEX
TIMING

+ 500
customers in the world

39 countries

“DRIVE YOUR SUCCESS”

Our values

Passion

Our strive to perfection allows us to provide excellent products and services.

Innovation

We advocate the technical improvement of our tools on a daily basis, so that they correspond to the expectations of our customers.

Proximity

Daily support, listening to our customers and a transparent company policy enable us to maintain a relationship of trust with our customers and in the internal organisation.

Our story

Founded in 2011 by Sylvain and Pierrick, Apex Timing is the link between the passion of motorsport and technology.

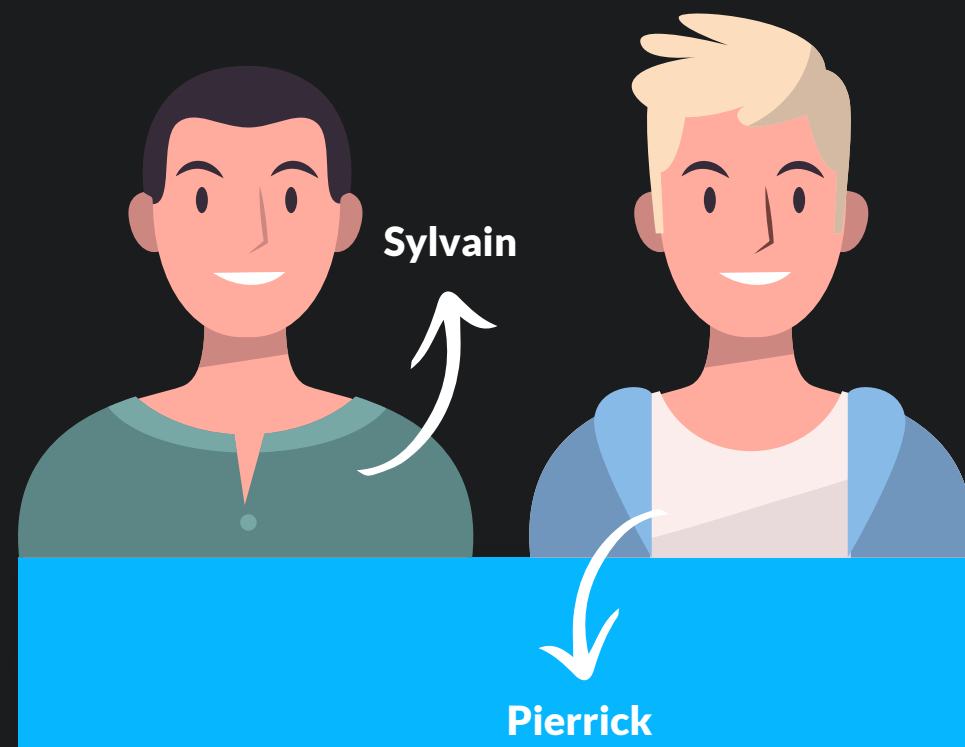

Motivated by the collaboration with CIK-FIA Karting, they built their solution according to the needs on the track. This tenacity led them to time the World and European Karting Championships from the very beginning of their journey.

A human company

Apex Timing is a dedicated team of more than 10 people, all inspired by the same objective: to provide technological solutions for the world of leisure and competition karting.

Our offer

We offer softwares that bring flexibility, simplicity and optimization for our customers with state of the art functionality in a single solution.

APEX TIMING

The company

Founded in 2011 by **Sylvain** and **Pierrick**, Apex Timing is born out of the **passion for mechanical sports and technology.**

GOKARTS

Multi-activity features

GOKARTS

Go-kart features

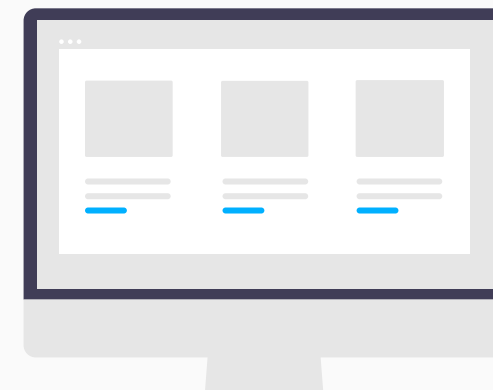

MULTIACTIVITY

GoKarts benefits

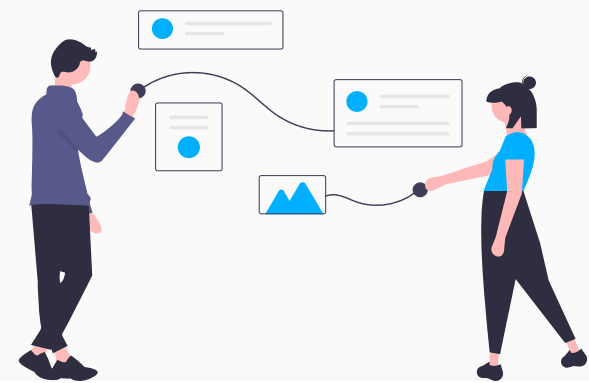

Autonomy
Easy to use

Automation
No repetitive tasks, all tools in one place

Tailor made
Brand image

Hybrid system
Local data base and web services

Data ownership
Respect of data legislations

FEATURE

Kiosk

New member self-registration options

The customer can register via the Kiosk installed in the center or via computer, tablet or phone.

All data are stored digitally to reduce physical storage space.

The Kiosk is available on [Android](#) and [IOS](#).

Secure data collection

Encrypted data backups, which ensures maximum security against data theft.

Allows access to document history directly in the customer or company database.

Waivers

Automatic retrieval of completed and signed waivers.

Configuration of automatic alerts to update waivers.

The + : customization of the waiver content.

For minors :

A parent or legal guardian will agree and sign the terms of the liability waiver.

Marketing

Optimization of the customer path with a fun and simplified Kiosk.

The collected data allows the creation of real [communication campaigns](#).

FEATURE

Check-in and management

Suitable for multi-activity centers. It combines all the main features in one solution.

- Point of sale
- Ticketing
- Order management
- Stock management
- Statistics and accounting

User access

Each staff member has a personalized access to the platform with adapted functionalities and rights.

Manage and control the software access.

NOAH

- Member access
- POS settings
- Web statistics

POS

 **Optimized products**
Reduction of the number of buttons in order to **simplify employees training.**

 **Dynamic pricing**
Application of different rates to the same product according to specific characteristics. *(hour, date, period...)*

 **Multi-payment**
Accept multiple payment methods.

 Automation

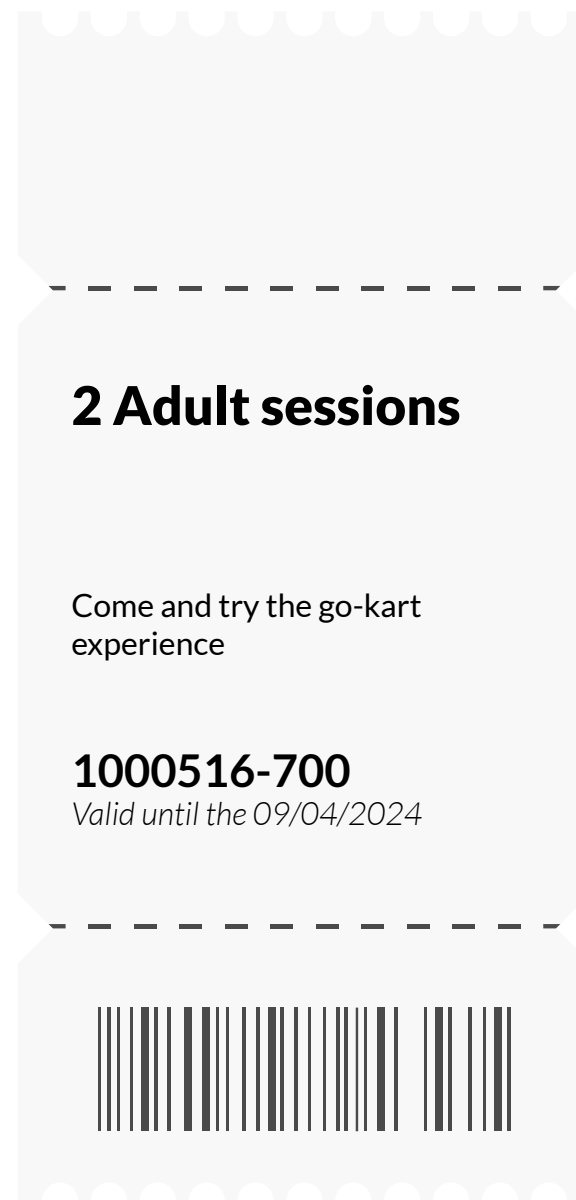

Ticketing

Ticket printing and access control

Automatic generation and printing of tickets from the cash register software.
Printed tickets give access to paid activities.

Ticket or wristbands printing

Trampoline specificity

Different wristbands colors to indicate the remaining session time according to the color.

Access control

Scanning of tickets or QR codes to access the activity.

Order management

Order management through GoKarts

Reception and management of orders from GoKarts, stocks are automatically deducted.

Easy order

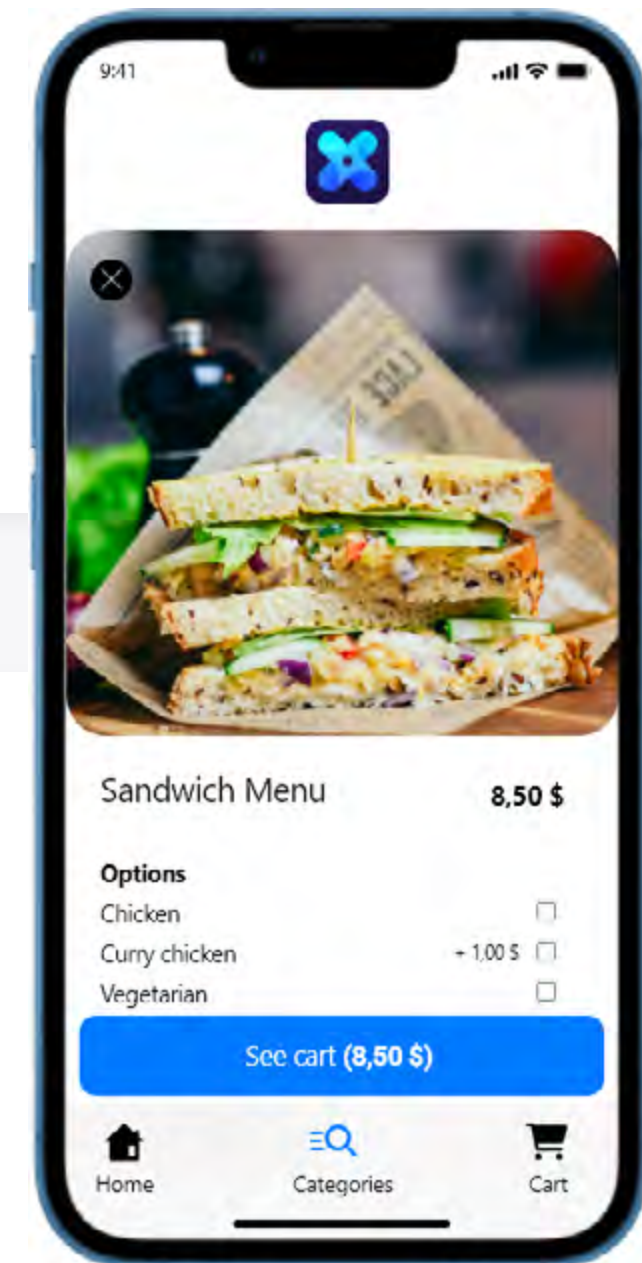

Printing of orders in the appropriate places (bar, kitchen, cash desk)

Tool for final customer and staff

Centralized module for a better communication between departments

Wifi order

The customer orders by scanning a QR code. Orders are sent to the terminal and stocks are automatically counted.

The customer pays directly with the SumUp reader

Automated inventory

Real-time inventory control and improved product rotation and replenishment.
Elimination of inventory errors.

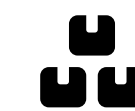

Linked inventory

Simultaneous counting of several products stored for a single option

Statistics

Real time inventory evolution analysis

Product management

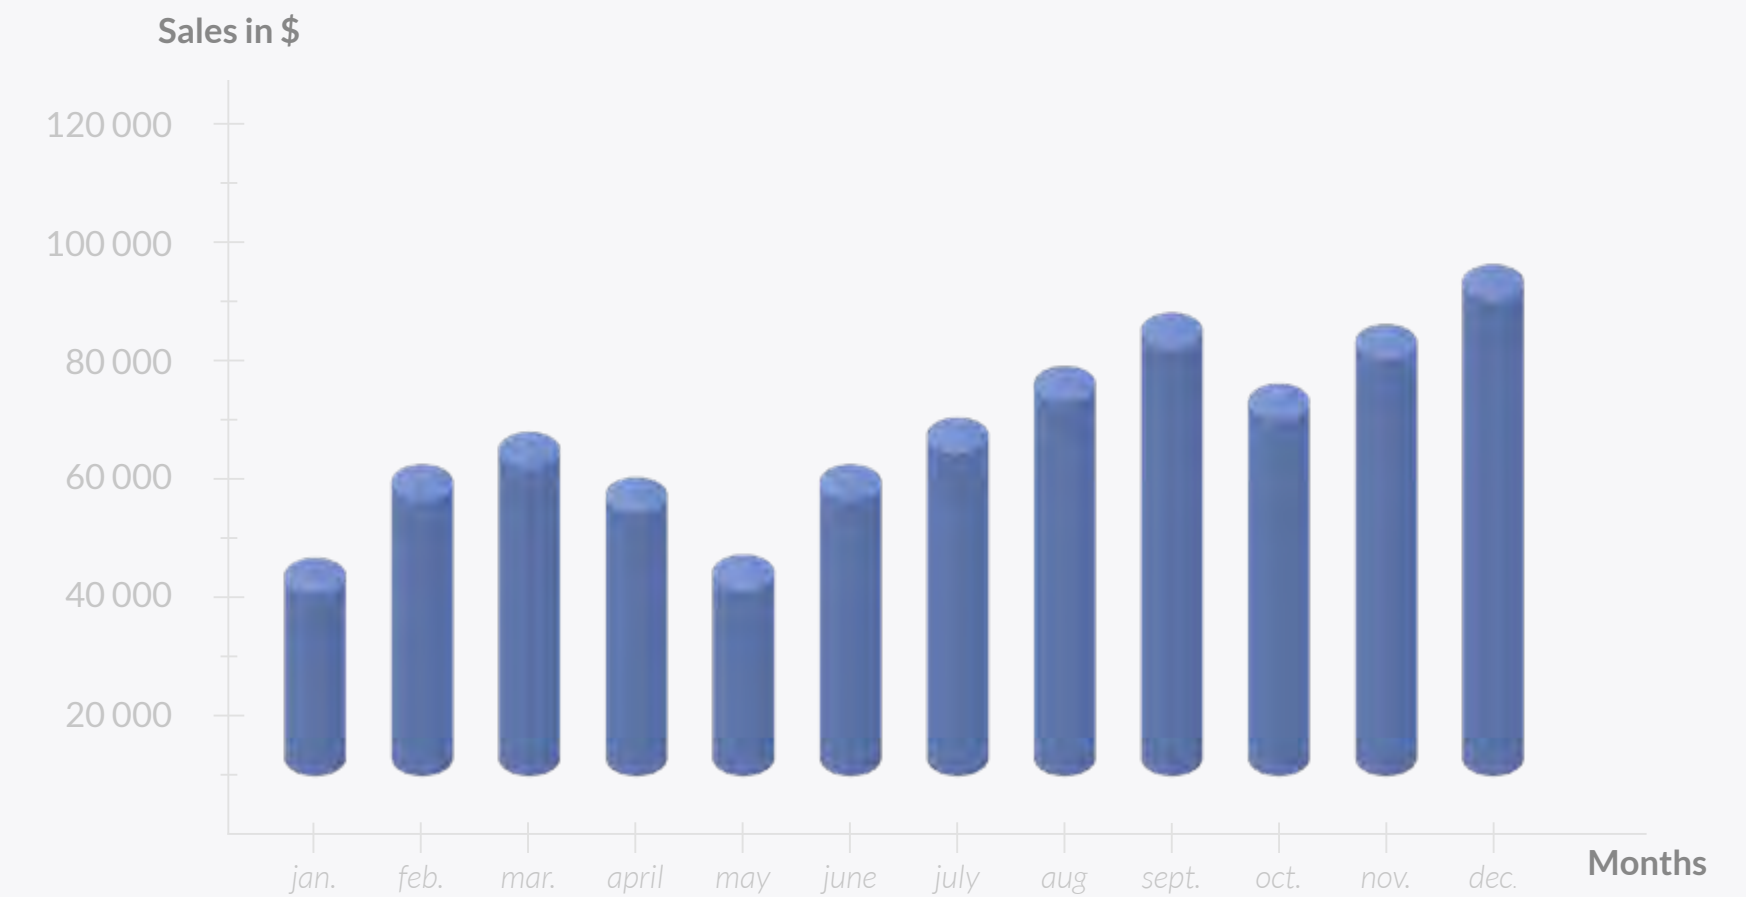

Detailed management of each product

Stock management

Access to several statistics from the GoKarts dashboard

- ✓ Sales analysis
- ✓ Online sales
- ✓ Members progression
- ✓ Stock movements and history
- ✓ Activity statistics
- ✓ Financial analysis

Statistics
and accounting

Accounting export directly from GoKarts

Multi-activity

FEATURE

Multi-activity calendar

An internal communication and organisation tool.

Scheduling activities, bookings or tasks list, the planning is a global tool for managing activities simultaneously.

Benefits

Display of booked time slots

Adding **documents** and **checklist** to an event

Optimisation of **internal communication** (internal chat)

Possibility to insert invoices or other accounting documents.

 Scheduling  Documents  Check-list  Chatbox

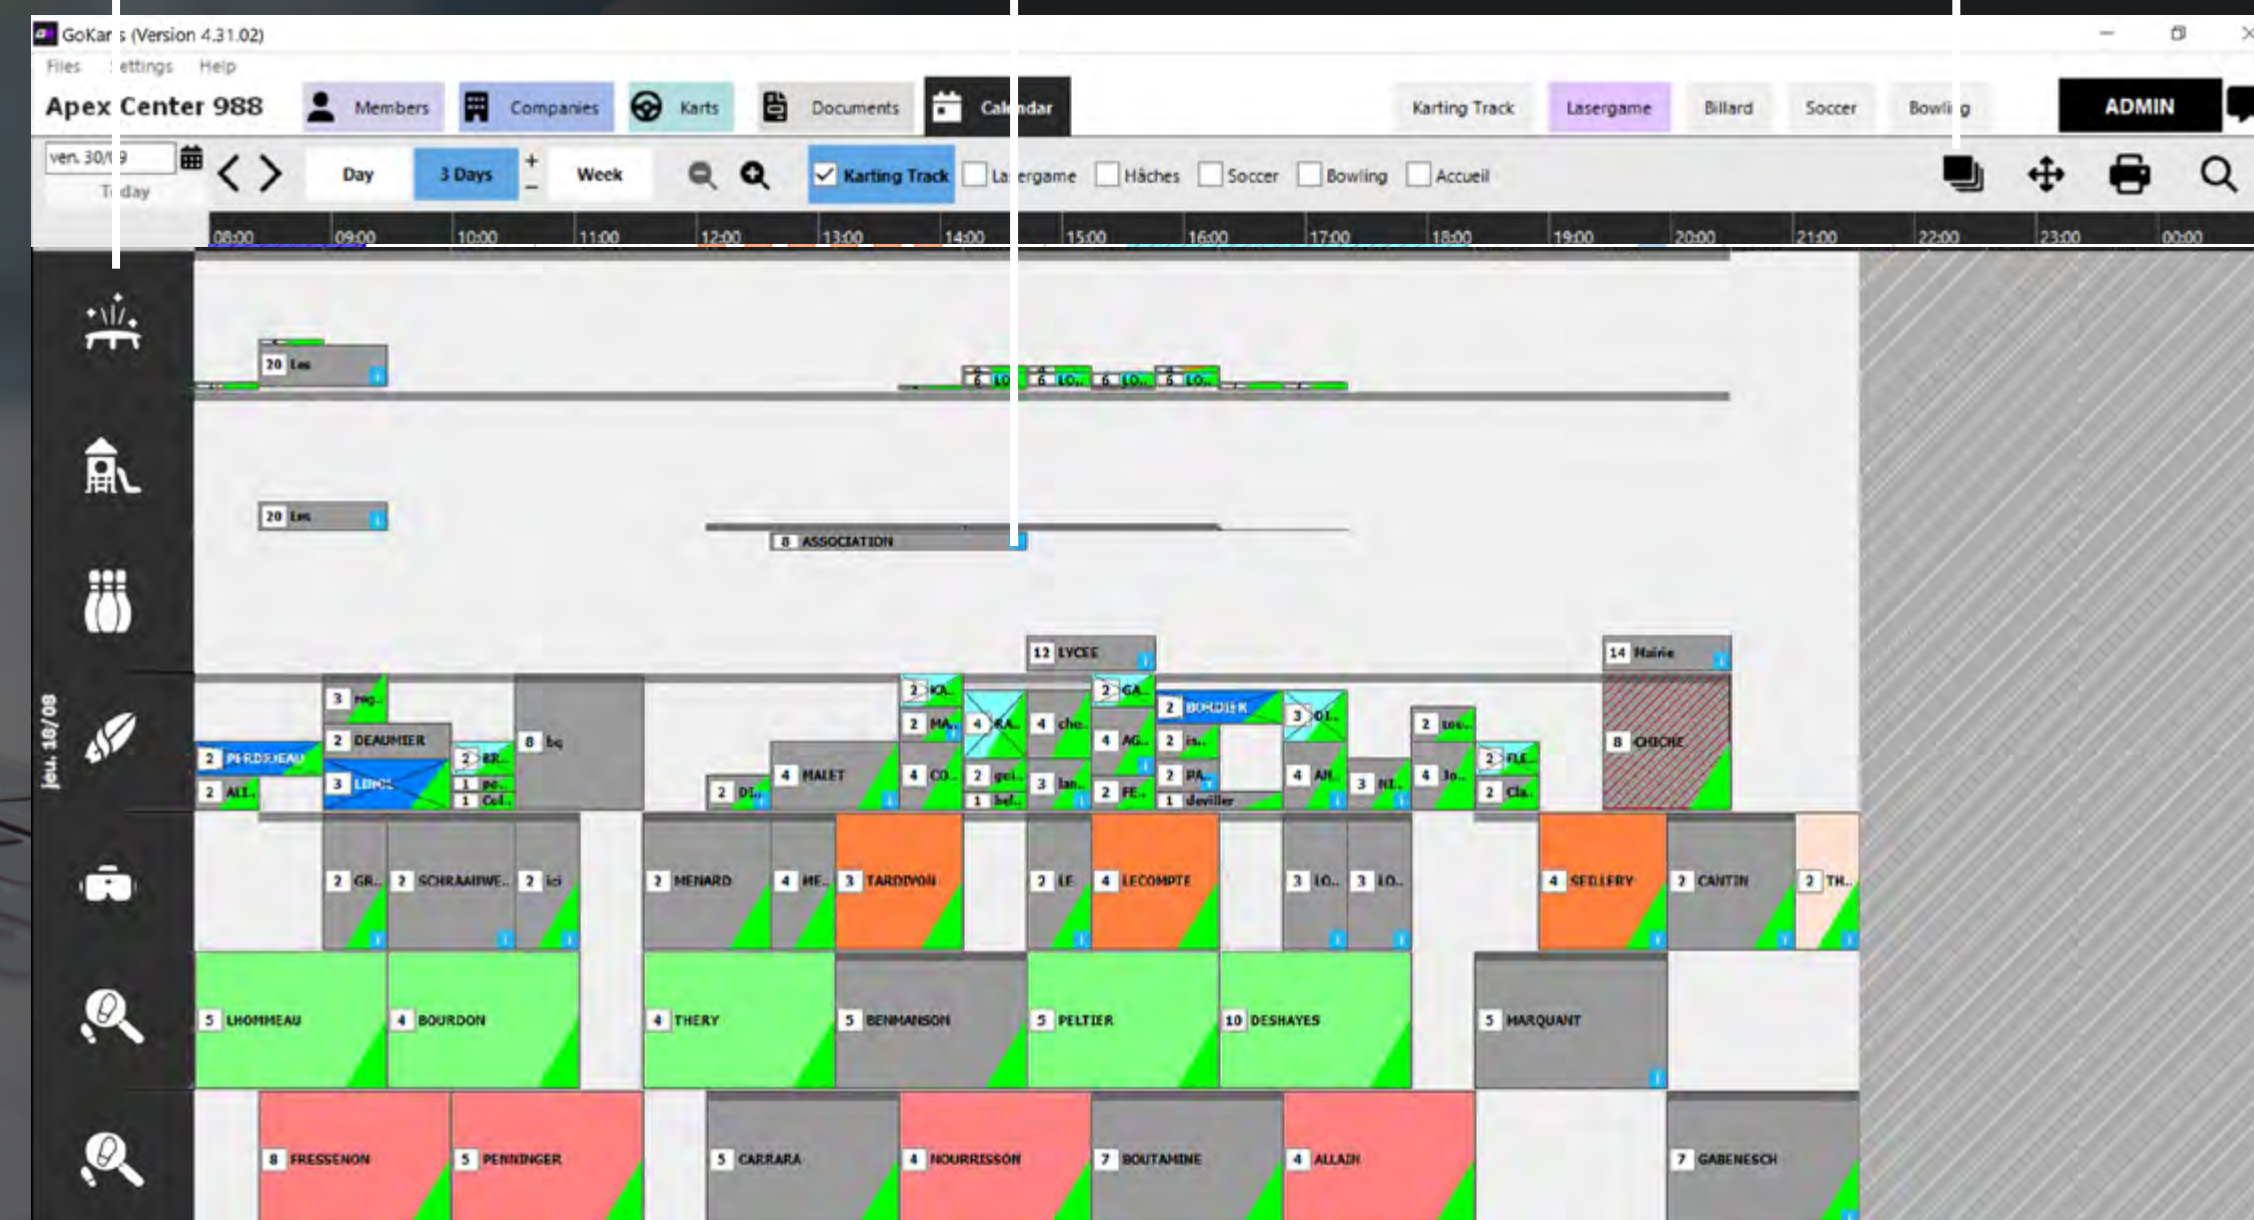

Activity and track organization

Booked time slots

Client's name, documents, checklist...

Tools

Multiple selection, print...

FEATURE

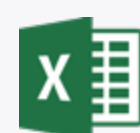

Business management

Task automation.

Accounting and sales documents are generated by the GoKarts software.

Access to the **customer and company database**: information is automatically filled in.

Possibility of quick printing, download in pdf or Excel format.

FEATURE

Communication

Targeted and easy communication

Communication campaigns created with the tools available in the GoKarts solution.

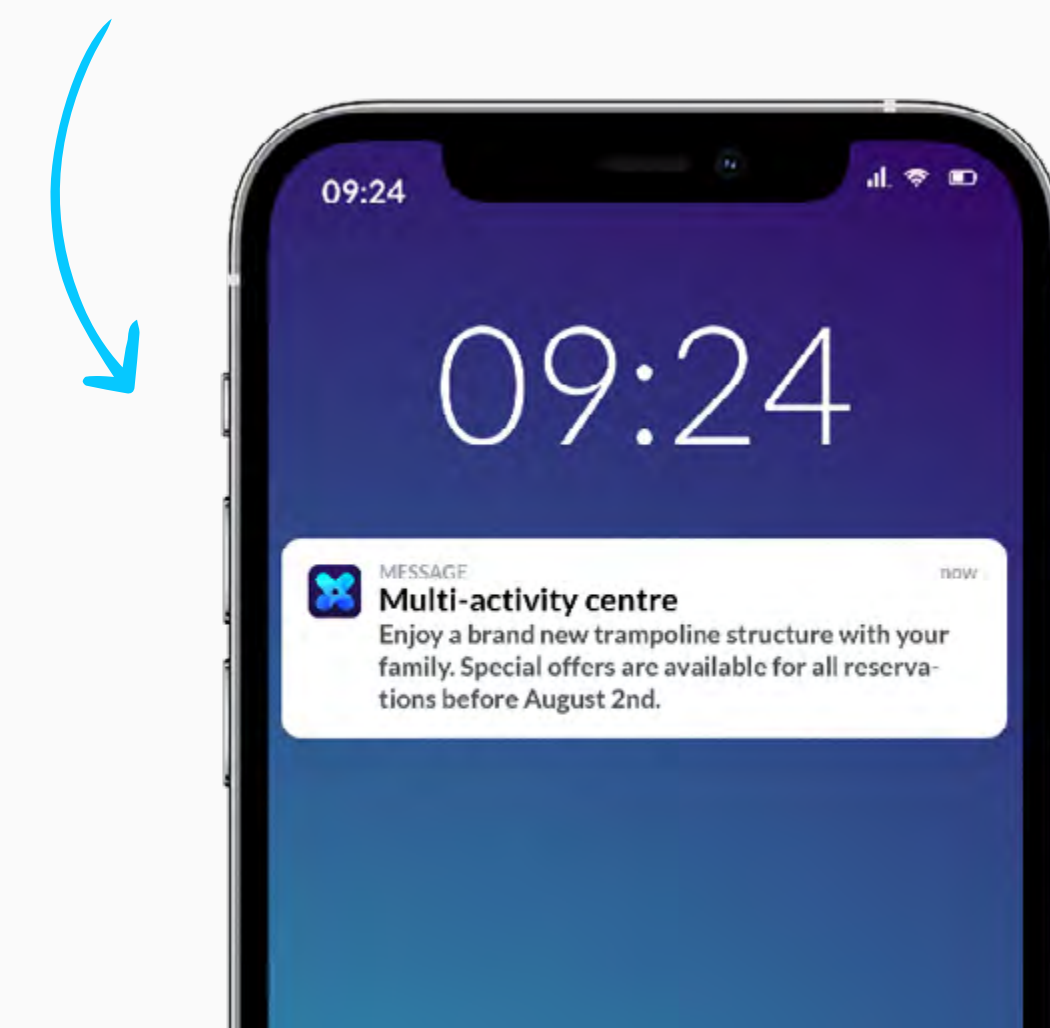

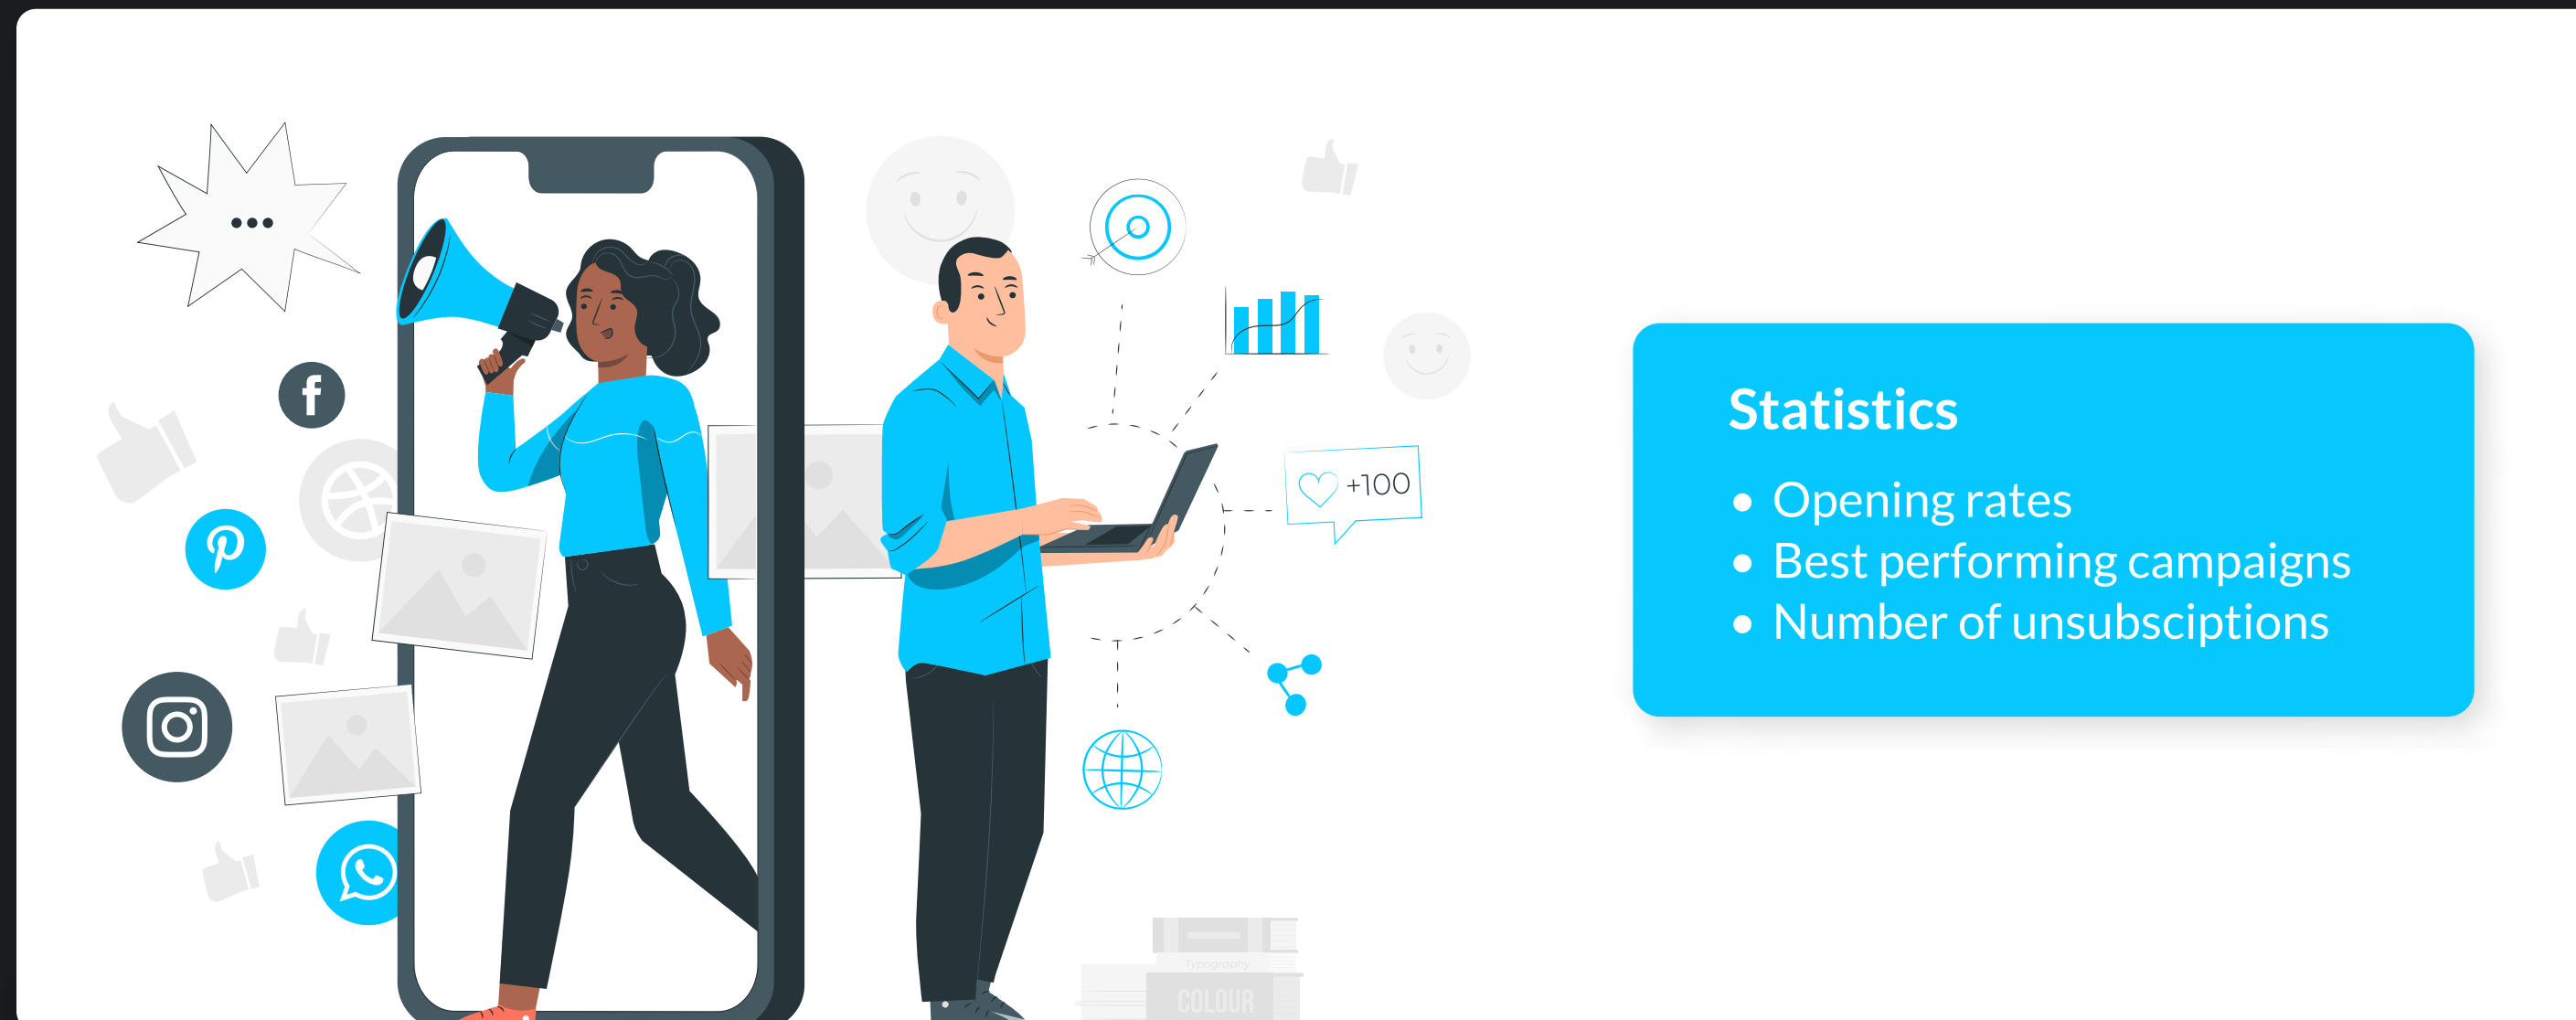

👍 Independent use

- ✉ **Newsletter**
Impactful e-mail campaigns with targeted mailings thanks to database filters.
- @ **E-mail automation**
Setting automatic e-mails according to **different triggers** (birthdays, results...)

- 💬 **Text message**
Booking reminder or booking confirmation.

💡 90% of text messages are read within 3 minutes of receipt, which is three times faster than e-mails.

- 🔔 **Push notification**
Alert message to boost audience engagement.

FEATURE

Loyalty

Turning customers into members

Several levers are available to build customer loyalty

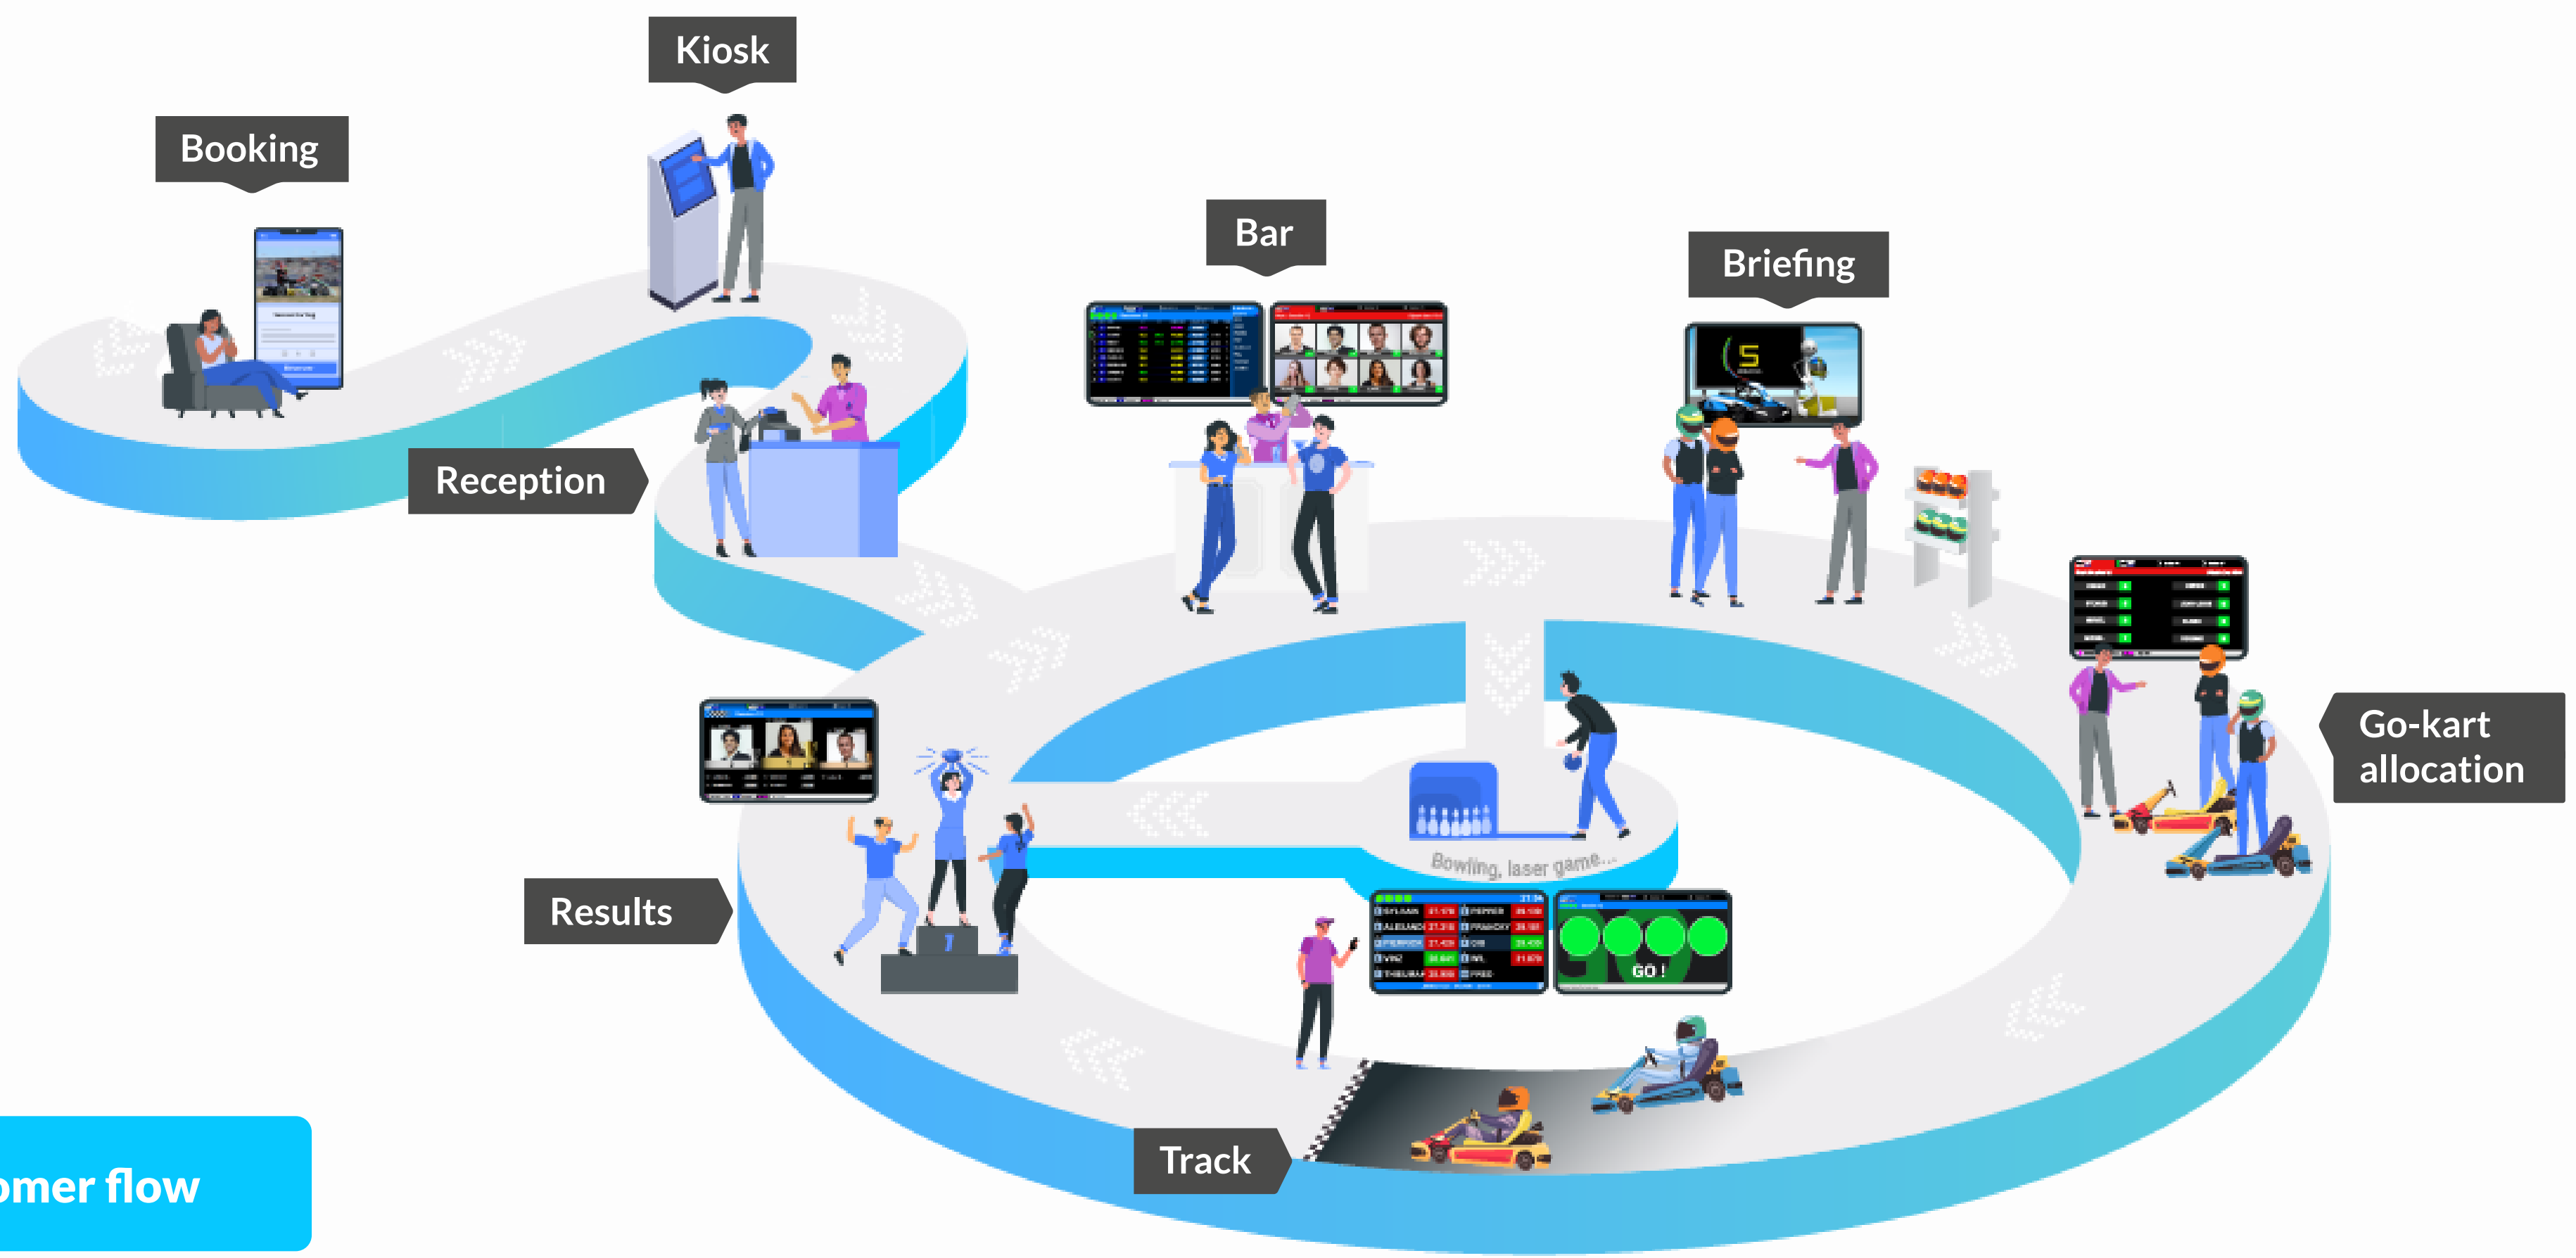

-  Vouchers
-  Loyalty points
-  Virtual wallet
-  Cashback
-  Member rates
-  Subscription

-  Virtual member card
-  Direct membership through the app

Go-kart features

GoKarts solution offers resources which suit especially to the go-kart industry.

Customer flow

GO-KART FEATURE

Complete solution

for sessions and event management.

 **Go-kart allocation**

Different methods according to the track configuration.
Smartphone app, drag and drop...
Easy go-kart substitution. Keeping driver history.

 **Professionnal timekeeping****Timing hardware**

Different timing systems
(Mylaps, RaceResults, Chronolec, Tag Heuer, etc.).

Multi-loops management

Pit time management for endurance, Pit-in, pit-out
F1 experience with **3 sectors on track**

POSITION	LAP TIME	S1	S2	S3
1. VAL	1:07.934	17.498	34.445	15.991
2. COM	1:08:645	17.736	34.646	16.263

Penalties

Automatic penalties (pit time...)
Live or post race penalties (time, points, position...)

Different go-kart models

Electric (speed control and boost) or petrol
Adult, Kid, Duo.
Ranking according to those models

Different track layout

Quick change from normal to XL or reverse track.

GO-KART FEATURE Live Timing

Displays the results in the center and on the internet.

- Automatic update to the latest version
- Customizable with the centres colors
- Fast track integration

Other features

Penalties are applied and exported in real time to the web or to TV offering a follow-up of key moments to the public.

Live timing also allows the broadcast of virtual championships or combined results.

Statistics

- Analyze the driver behaviour : performance, pit stop, etc.
- Compare the performance of several drivers simultaneously.

The module is totally responsive

APEX TIMING IS ALSO:

GoRacing

An all-in-one software for the **management** and **timing** of karting competitions.

Management

Release of data (Starting grid, results, etc.)

Communication

Automatisation of the information.
Internal chat integrated into the solution.

Results

Release on the web, display pannels, TVs.

Equipment

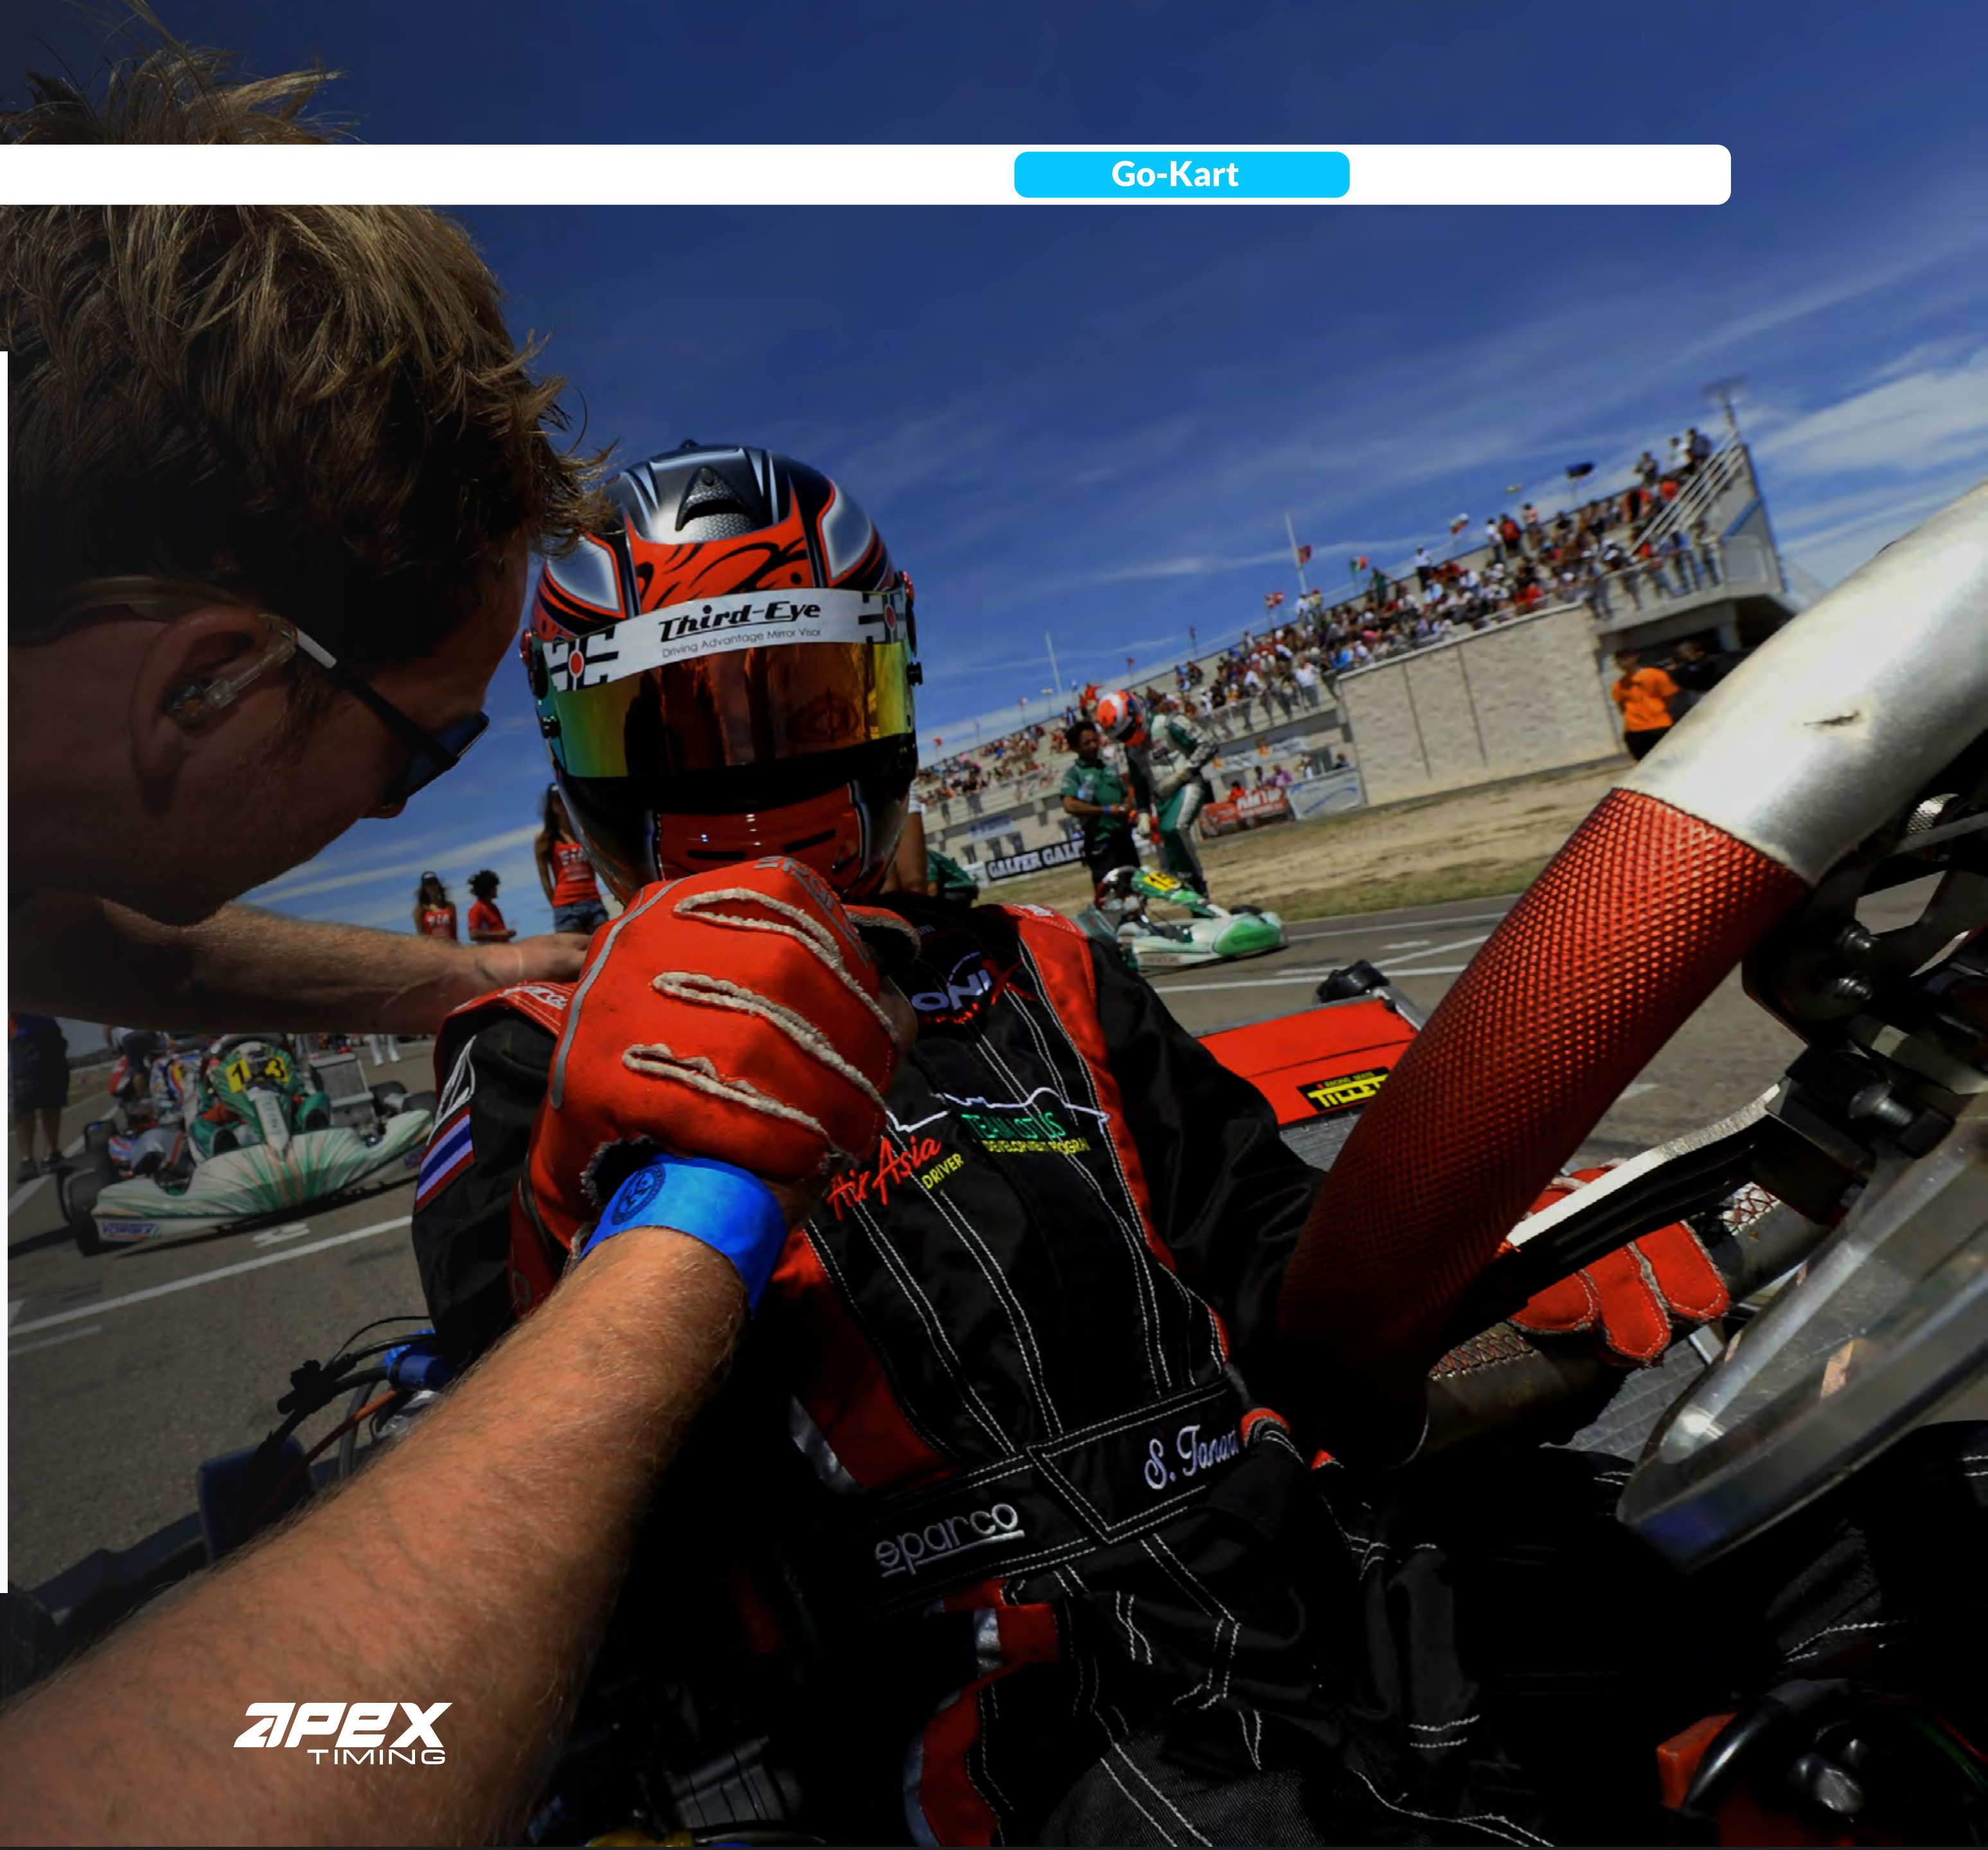

Registration and equipment control : barcodes, RFID

Live Timing

Real-time webcasting of races.

Timing

Intuitive and easy to use.
